Selected by President Obama as the fifth inaugural poet in U.S. history, Richard Blanco is the youngest and the first Latino, immigrant, and gay person to serve in such a role. Born in Madrid to Cuban exile parents and raised in Miami, he often treats the negotiation of identity in his poetry. Richard has received several literary

awards and honorary doctorates. He has taught at Georgetown University, American University, Wesleyan University and most recently as a Distinguished Visiting Professor at Florida International University where he developed courses on the intersections of poetry, community, and current events. Richard's work has a way of bringing all of us together by having us ponder those universal questions we all ask ourselves on our own journeys: Where am I from? Where do I belong? Who am I in this world? MaFLA is honored to have Richard Blanco as our Keynote Speaker.

PDP Information: MaFLA will give you a certificate of attendance, but it is your responsibility to document your conference attendance experience and save it. There are almost twenty-five PDP hours of conference sessions, workshops and events to plan for, depending on how you arrange your schedule. The Massachusetts DESE allows for bundling of Professional Development Points (PDPs) in batches of ten based on your further adaptation and implementation of information gained at the conference in your teaching and planning. This means that each session could be worth ten hours of PDP time, or more, depending on what you do with it. Presenters are being asked to include ideas for follow-up activities for the information gained from the session.
