10:05:47 From Paula : Bonjour
10:05:49 From Shannon Vigeant : WHat would I use a poll for? A warm-up? Quiz?
10:06:25 From rbackmend to Catherine Ritz (Privately) : Can you please slow down a bit?
10:07:00 From adivadkar : When you say interpersonal--can you pair students in conversation ?
10:08:51 From adivadkar : Does it work on chrome books?
10:09:00 From Camilo Moreno : Hola from Boston
10:10:24 From rsymonds : Do we need to have an upgraded"version of zoom for a virtual background? Does the app cost anything? If we are using a school computer, does the district have to have a zoom account?
10:11:04 From adivadkar : So can you create a file polls that you access? How does that work?
10:12:11 From Beckie Bray Rankin : Regina – right now, Zoom is free for all educators. You don't need a pro account right now for the features Catherine is talking about. Once this virus has passed, you may need to upgrade your membership to keep the features.
10:13:28 From rsymonds : Wow! That is great! Thank you!
10:13:29 From barnettb : HOLA! This is Bárbara from Wellesley Public Schools (Spanish FLES program). Hope everyone id staying sane!
10:14:59 From ericahern : I'm wondering how Zoom compares to Google Meet. It looks like Zoom has more features, though I don't have a lot of experience with either.
10:15:09 From Beckie Bray Rankin : For those of you whose students have chromebooks, this works!
10:16:08 From ChinHuei Yeh : Hi, will we receive the PPT for review after the session?
10:16:28 From naykanian : Could you clarify about the browser extension?

10:20:23 From Shannon Vigeant : Link not working for google slides, can you try one more time :)

10:20:37 From Nicole Haghdoust : Something to consider about flip grid. I work at Wayland public and flipgrid did not sign our student data privacy agreement

10:20:45 From Jennifer Cheng : Thank you Catherine!

10:20:50 From Nicole Haghdoust : Might want to check it out with your tech dept before using

10:20:56 From hleger : Merci beaucoup!

10:21:16 From Shannon Vigeant : Nevermind, Catherine, it worked. Thank you so much!!!!

10:21:45 From Tiffany M : Link is still not working for me :(

10:21:46 From Catherine Ritz : Browser Extensions: There is one for GoogleChrome. You can search for this online, then install. It creates a small button at the top of your browser. This allows you to create or launch meetings instantly. They connect to your GoogleCalendar. From GoogleCalendar, you can add students via email and they get an invite to join your meeting at the scheduled time.

10:21:46 From Beckie Bray Rankin : Just a reminder of our norms to keep video and audio on mute. Thanks!

10:23:01 From Herbert to Catherine Ritz (Privately) : Hi Catherine! The link to your presentation is still not opening for me. 404 Error

10:23:09 From adivadkar : Can you max out of topics?

10:23:38 From Catherine Ritz to Herbert (Privately) : Does it work on chrome books? ... YES. My children have been Zooming from their Chromebooks.

10:23:57 From Karen : Link isn't working for me either.

10:24:13 From Shannon Vigeant : I had to cut and paste into Chrome, then it worked

10:24:33 From Catherine Ritz : Does it work on chrome books? ... YES. My children have been Zooming from their Chromebooks.

10:25:13 From Catherine Ritz : Here is the link again: <https://drive.google.com/file/d/1JWcXobVjSpA00q3W-Hh2erKSJ8IYCMx-/view?>

usp=sharing

10:25:19 From Jennifer Cheng : How do you deal with the inappropriate presentations?

10:26:01 From Herbert : It worked thank you! Excellent presentations

10:26:06 From Karen to Catherine Ritz (Privately) : Thank you! It works!

10:26:16 From Catherine Ritz to Karen (Privately) : Great!

10:26:23 From Beckie Bray Rankin : A reminder that this is being recorded, so you can always access it later!

10:26:34 From Wendy Cotta : That link is a pdf, correct?

10:26:58 From Catherine Ritz : yes!

10:27:19 From Wendy Cotta : Thank you!

10:27:30 From ubarric : Can feedback be seen by all or just the one student?

10:28:05 From Bobby's iPhone to Catherine Ritz (Privately) : merci, cela me sera très utile

10:28:42 From adivadkar : What's remind?

10:29:22 From Beckie Bray Rankin : Remind is a software that some teachers use with students to keep assignment dates organized.

10:30:52 From akerr : Our school gives students access to Google Drive, but not the email feature on gmail. Can students see feedback by logging into Flipgrid if email is not an option?

10:30:58 From Shannon Vigeant : How do students get on? Are they invited or do they sign in to a class?

10:31:31 From Kathryn May : They should still be able to see the feedback in the Flipgrid website that they access with their Google account. They don't need to access their Gmail

10:33:13 From Kathryn May : Students will go to the main Flipgrid homepage and enter the "Flip code" for the assignment, or topic, you've created for them to complete

10:33:28 From Shannon Vigeant : Okay- so no account needed?

10:33:50 From Shannon Vigeant : You have the account, they just access the assignment with the code?

10:34:10 From Korey : Thank you for all of these great ideas!

10:34:31 From Ginger Cline : Yes, students on computers just access the link. On phones, they will need the app

10:34:32 From Camilo Moreno : Mil gracias Ryan.

10:34:41 From Korey : Middle School students LOVE scavenger hunts so the FlipHunt seems like a great idea :)

10:35:00 From Zoe Hughes : Hi, this is Karen Sasky Hughes,

10:35:06 From Kathryn May : I believe that's right. Students' don't need to create an account. Easiest to log in with their school google account

10:35:06 From 毛守仁 : wonderful info, Ryan. Many thanks!

10:35:18 From Zoe Hughes : Has anyone used flip grid for elementary language teaching?

10:35:23 From Ryan Casey : <https://signup.flipgrid.com/from/Ryan7886>

10:35:51 From Rebecca Blouwolff : I'd be down for creating a French 6 or 8 fliphunt...

10:36:04 From Shannon Vigeant : Awesome, Ryan, thank you!

10:36:13 From Zoe Hughes : this is actually Karen Hughes on Zoe's account this is great, thank you!!!

10:36:48 From Tiffany M : I'd love to connect about elementary learning as well :)
10:36:48 From Karen Li : Thanks Ryan
10:36:51 From Ryan Casey : Thank you, everyone!
10:37:01 From barnettb : 5th graders would have a blast with this tool. Can't wait to create a scavenger hunt for them.
10:37:30 From Jennifer Cheng : I have four people on Zoom in my household. Internet is unstable :(
10:38:51 From ericahern : I love Edpuzzle!
10:41:33 From adivadkar : Sometimes videos are no longer available—is there a way to preserve them ?
10:42:13 From Ryan Casey : I would download YouTube videos that you really want to save, and then you can keep them in your own files
10:42:53 From Beckie Bray Rankin : This is the site our digital learning coach recommends downloading youtube with: <https://www.downvids.net/>
10:47:18 From adivadkar : I tell students to always spend more time than the video lasts—do you have a rule of thumb to make sure they are really doing their best to understand?
10:49:18 From Jeanne : Thanks for sharing the site for downloading YouTube videos, Beckie.
10:49:29 From Ariane Belkadi : Can you use videos from your Google Drive?
10:49:48 From adivadkar : Great tip!
10:50:57 From Jeanne : Is the downloader Kathy spoke of the same site that Beckie shared?

10:53:27 From adivadkar : How straightforward is it to set uptake breakout sessions in zoom?

10:53:31 From kathleenturner : You can download videos from youtube with savenet

10:53:41 From Beckie Bray Rankin : Oliva, the presentation is recorded and will be on the Mafla website and on facebook. You can search the chat for the two links shared.

10:54:00 From kathleenturner : Once you have it installed, the green arrow appears on all youtube videos that you see, you click the arrow and you download easily!

10:54:50 From Beckie Bray Rankin : Evaluation: https://docs.google.com/forms/d/e/1FAIpQLSdvth2t-5jv8G9zq3Pg-jswryU84QZHs_I3o44tSDmMoKN8AA/viewform?usp=sf_link

10:55:01 From Judith Jeon-Chapman : I have a question for Catherine about Zoom invitations. I would like to meet with each of my five classes regularly. Can I set it up for I don't have to manually invite each student from each class before each class?

10:56:12 From Alex Ortiz : Gracias a tod@s

10:56:13 From rbackmend : So videoconference to give INPUT and they for their output: I wonder how hard it would be for students to have Zoom open while they are doing an Edpuzzle or Flipgrid...?
